COMMENTS:

(1) This report is composed largely of material which has appeared in the press or in either Restricted or Unclassified publications(FBIN reports). Most of this information came from official French press sources (which are not highly regarded for their accuracy); none of it is new.

(2) Copies of FBIN reports do not constitute "documentary intelligence" which is the term used to describe captured enemy documents and documents or photostats procured by agents, etc. Copies of material prepared by one's own intelligence organization

do not fall in this category. Hence, to term both the source and the evaluation of the information contained in this paper as "documentary" is incorrect.

(3) Paragraph three (3) states that the French National Assembly has dissolved the Madagascar Renovation Party and cites page 10 of the report as evidence of this. A careful examination of page 10 does not reveal such evidence for while it says that the French Cabinet decided to dissolve the MDRM, no mention whatsoever is made of the matter being put to a vote of the French National Assembly nor is there any reference to whatever action the Assembly may have taken.
